- Backend: Node.js, Express.js, REST API
- Database: PostgreSQL, Prisma ORM
- AI & Automation: LLM Integration, Google Gemini, AI Agents, Telegram Bots
- Tools & DevOps: Git, Vite, Postman, Linux, Nginx, WordPress, Figma

ABOUT

Full-Stack Developer specializing in web applications, AI integrations, and business automation. Experienced with React, TypeScript, Node.js, Express, PostgreSQL, REST APIs, and AI/LLM solutions, from development to production deployment.

SELECTED PROJECTS

AI-Powered Smart Planner — Full-Stack & AI Developer
Built a PWA that converts natural-language requests into structured tasks, prioritizes them using the Eisenhower Matrix, and supports intelligent scheduling and rescheduling. Integrated Google Calendar and Google Gemini.
React · Node.js · Express · PostgreSQL · Prisma · Gemini API

Repatria Europe — Frontend Developer & UI/UX Designer
Designed the complete interface in Figma and developed a responsive React landing page for an international repatriation service operating across Europe. Created reusable components and conversion-focused service and contact sections.
React · JavaScript · Figma · Responsive Design

KM-Trade — Backend (Lead-Bot)
Worked on a production business website and related automation solutions, including server deployment, Nginx configuration, analytics integration and business lead automation.
React · Node.js · TypeScript · Nginx · REST API

EXPERIENCE

Full-Stack Developer — I.deal

Chernivtsi, Ukraine | May 2026 – Present
